

Russian Civilization

Program Chairman: Richard Hellie, SS 204A, 702-8377

Program of Study

Students concentrating in Russian civilization gain competence in the Russian language as a tool for further work, some knowledge of one or more of the social sciences as they deal with Russian materials, and a thorough grounding in selected aspects of Russian history, politics, economics, or related subjects. The B.A. program in Russian civilization can provide an appropriate background for careers in business, journalism, or government, or for graduate studies in one of the social sciences disciplines.

Program Requirements

Before entering the program in Russian civilization, students are expected to have completed a year of Russian language through College course work or to have demonstrated equivalent achievement by an examination. They are also expected to have taken the two-course sequence in Russian civilization (SOSC 24000-24100) that may be used to meet the general education requirement in civilization studies.

The concentration requires three additional courses in Russian language and eight further courses dealing with Russia, at least four of which must be courses in the social sciences, and three of which may be third- or fourth-year Russian.
